Company?

# MONTGOMERY PROFESSIONAL SERVICES CORPORATION

Think about it. Back office business solutions centered on your company—delivered by experts focused on service and solutions. With MPSC you have found a partner to perform as an integral part of your team and let you focus on what you do best.

**Expertise. Value, Knowledge. Now.**

#### **MPSC Background:**

**A rich history. A bright future. A trusted partner.**

MPSC was founded in 1989 by Henry C. Montgomery under the name of Montgomery Financial Services Corporation (MFSC). Mr. Montgomery is a seasoned Fortune 500 senior executive who created a vision for outsourcing the finance and accounting portions of small to medium sized businesses.

The Company flourished in the mid-1990s as outsourcing became an accepted business practice. MFSC developed a reputation for high quality service and a reliable work product in accounting and finance services and developed many long term partner and client relationships that exist to this day.

Looking to provide the catalyst to grow MFSC to the next level and beyond, Mr. Montgomery tapped into the expertise of an executive highly experienced in the professional services world to lead the charge. Rick Giorgetti joined as president and CEO in April of 2002 to guide the efforts of the Company moving forward.

Mr. Giorgetti has developed the new expanded vision for the Company to include the addition of human resources, marketing and information technology outsourcing in addition to professional level temporary placement.

In March 2003, Montgomery Professional Services Corporation was born. After obtaining financing to fuel growth, MPSC is poised to provide tremendous service to its clients by utilizing the skill base of its executive team and its talented employee consultants and contractors.
